Residential District Regulations**

The purpose of this section is to set forth regulations that control the establishment and operation of home occupations. The intent of these regulations is to control the nonresidential use of a residential dwelling unit and/or accessory building so that the nonresidential use is limited to an accessory use, and does not in any manner whatsoever disrupt or alter the residential character of the neighborhood in which it is located. Compliance with these regulations should result in all home occupations being located and conducted in such a manner that their existence is not detectable in any manner from the outside of the dwelling unit and/or accessory building.

- A. A home occupation shall occupy no more than 25% of the floor area of the dwelling unit and shall be clearly incidental and secondary in importance to the use of the dwelling unit for dwelling purposes.
- B. Such home occupation shall employ no more than two persons who do not reside in the dwelling unit and have adequate on-site parking.
- C. There shall not be any change in the outside appearance of the building or premises, or other visible exterior change related to the home occupation.

**SECTION 310.11 FAMILY DAY CARE HOME, TYPE “B”.**

This Zoning Resolution recognizes that the availability of safe and affordable, good-quality child day care is important to the well being of parents and children. Furthermore, it is the purpose of this section to regulate the operation of child day care in a manner that preserves the residential character of neighborhoods. According to ORC 5104.054, any type “B” family day-care home, whether certified or not certified by the county director of human services, shall be considered to be a residential use of property for purposes of municipal, county, and township zoning and shall be a permitted use in all zoning districts in which residential uses are permitted. A type “B” family day-care home is a permanent residence of the provider where child care is provided for 1 to 6 children and where no more than three children are under two years of age. For the purposes of this definition, any children under six years of age who are related to the provider and who are on the premises of the day-care home shall be counted. Type “B” family day-care homes are a permitted accessory use in residential districts, and do not require a zoning certificate.
