**SECTION 370.01 PURPOSE.**

Industrial Districts (L-I and G-I) and their regulations are established in order to achieve, among others, the following purposes:

- A. To provide in appropriate and convenient locations, sufficient areas for industrial and manufacturing activities and the distribution of goods;
- B. To protect residential neighborhoods adjacent to industrial uses by restricting the types of establishments, particularly at the common boundaries, which would create congestion, noise or other objectionable influences;
- C. To protect and stabilize both residential and nonresidential developments from congestion by requiring off-street parking facilities;
- D. To provide Limited Industrial (L-I) Districts for establishments that utilize processes in which dust, smoke, fumes, glare, odors or other objectionable influences can be controlled, and which normally generate only limited outdoor activities in association with a principal activity that is conducted primarily indoors.
- E. To provide General Industrial (G-I) Districts for establishments that utilize products and processes that involve some dust, smoke, fumes, glare, odors or other objectionable influences, but which do not create any dangers to the health and safety of the surrounding neighborhoods. These uses usually require outdoor storage of goods and supplies as well as access to major transportation routes.
- F. To promote the most desirable and beneficial use of the land in conformity with the Comprehensive Plan.

**SECTION 370.02 USE REGULATIONS.**

- A. A use listed in Schedule 370.03 shall be permitted by right as a principal use in a district when denoted by the letter "P" provided that all requirements of other township resolutions and this Zoning Resolution have been met;
1. Uses similar to principal permitted uses. Where a use is proposed that is not listed or provided for in this section, the Zoning Inspector may make a determination that the proposed use is substantially similar to a specific principal use listed in this section, in which case the similar use shall be permitted as a principal use in those districts where the specifically listed use is permitted. *(Added 5/14/19)*
- B. A use listed in Schedule 370.03 shall be permitted as a conditional use in a district when denoted by the letter "C", provided the Board of Zoning Appeals first makes the determination that the requirements of Chapter 390 have been met according to the procedures set forth in Chapter 630;
1. Uses similar to conditionally permitted uses. Where a use is proposed that is not listed or provided for in this section, the Zoning Inspector may make a determination that the proposed use is substantially similar to a specific conditional use listed in this section, in which case the similar use shall be permitted as a conditional use in those districts where the specifically listed conditional use is permitted. A similar conditional use shall conform to the general standards for all conditional uses in Section 390.02 and any other numerical or specific standards in chapter 390 for the specifically listed conditional use to which the proposed use is most similar, and shall be approved in accordance with the administrative procedures in chapter 630. *(Added 5/14/19)*
- C. A use listed below shall be permitted as an accessory use in any industrial district. Such use shall be permitted as a subordinate building or use when it is clearly incidental to and located on the same lot as the principal building or use. Accessory uses are further regulated in subsequent sections, as noted below.
1. Off-street parking and loading areas as regulated by Sections 370.07 and Chapter 410.
  2. Signs as regulated by Chapter 420.
  3. Vending area, snack bar or cafeteria primarily for employees.
  4. Other uses of land or buildings which are clearly incident and subordinate to the principal use.

- D. Standards for consideration of similar uses. The following standards shall be considered by the zoning inspector when making the determination that the proposed use is substantially similar to a specific use listed in this section, in which case the similar use shall be permitted as the main use in those districts where the specifically listed use is permitted.
1. The compatibility of the proposed use with the general classification of uses specified in this zoning resolution;
  2. The nature, predominant characteristics, and intensity of the proposed use in relation to the similar principle or conditional use in that district;
  3. The size, dimensional requirements, parking requirements, traffic generation potential, and other regulatory considerations normally associated with uses specified in this Zoning Resolution. ***(Added 5/14/19)***

Any use not be noted as either a permitted principal or conditional use in a particular zoning district, shall be prohibited in that zoning district and shall only be permitted upon amendment of this Resolution and/or the Zoning Map as provided in Chapter 660. ***(Amended 5/14/19)***
