| 390.04 | Schedule of regulations for conditional uses in residential districts. |        |  |

**SECTION 390.01 PURPOSE.**

Conditional uses are those uses having some special impact or uniqueness that requires a careful review of their location, design, configuration, and special impact to determine, against the standards and criteria set forth in this Chapter, the desirability of permitting their establishment on any given site. They are uses that may or may not be appropriate in a particular location depending on a weighing, in each case, of the public need and benefit against the local impact and on such other factors established herein.

Review of a conditional use by the Board of Zoning Appeals is required to ensure that each proposed conditional use is consistent with the intent and objectives of the particular district in which it is to be located. Accordingly, conditional use permits for such uses shall be issued in compliance with the procedures and requirements of Chapter 630.

**SECTION 390.02 GENERAL CRITERIA FOR ALL CONDITIONAL USES.**

A conditional use, and uses accessory to such conditional use, shall be permitted in a district only when specified as a conditional use in such district, and only if such use conforms to the following standards in addition to any specific conditions, standards and regulations for such use or category of uses set forth in Sections 390.02 through 390.06. Furthermore, the Board of Zoning Appeals shall review the particular facts and circumstances of each proposed use in terms of the following standards and shall find adequate evidence that:

- A. The conditional use in the proposed location will be consistent with the purpose, intent and basic planning objectives of this Resolution, the objectives for the district in which located, and the Comprehensive Plan;
- B. The establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety or general welfare;

- C. The conditional use will be designed, constructed, operated and maintained so as to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity, and that such use will not essentially change the character of the same area;
- D. The hours of operation of the proposed use are similar to a use permitted in the district.
- E. The conditional use will not be hazardous or disturbing to the existing and future use and enjoyment of property in the immediate vicinity for the uses permitted, nor substantially diminish or impair property values within the neighborhood;
- F. The establishment of the conditional use in the proposed location will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district;
- G. Adequate measures have been or will be taken to provide ingress and egress designed to minimize traffic congestion on the surrounding public streets;
- H. The establishment of the conditional use should not be detrimental to the economic welfare of the community by creating excessive additional requirements at public cost for public facilities such as police, fire and schools;
- I. There is minimal potential for future hardship on the conditional use that could result from the proposed use being surrounded by uses permitted by right that may be incompatible;

**SECTION 390.03 SPECIFIC STANDARDS FOR CONDITIONAL USES.**

In addition to the general criteria established in Sections 390.01 and 390.02, the following specific conditions shall apply to all conditional uses.

- A. Supplementary Conditions and Safeguards. Nothing in these regulations shall prohibit the Board of Zoning Appeals from prescribing supplementary conditions and safeguards in addition to these requirements in order to ensure compliance with the criteria set forth in Section 390.02.
- B. Conformance with District Regulations. A conditional use shall conform to the regulations of the district in which it is located and to other substantive requirements of this Zoning Resolution, as well as satisfy the conditions, standards and requirements of this Chapter. Whenever there is a difference between the provisions of the conditional use regulations and the district regulations, the provisions of this Chapter shall prevail, unless clearly indicated differently in the regulations.

- C. Exception to Height Regulations. *(Amended 9/10/19)* The height of a non-residential building permitted as a conditional use in a residential district shall not exceed 50 feet, except that church spires, cupolas, domes, towers, and flag poles, located upon or constituted as an integral part of an institutional building may be erected to a height not to exceed 75 feet when the building is setback from each lot line at least one foot for each foot of additional building height above 50 feet when permitted by the Board of Zoning Appeals.
- D. Specific Development Standards.
1. The Board of Zoning Appeals may limit the hours of operation to ensure that the conditional use is compatible with the surrounding uses.
  2. For parcels of two or more acres in residential districts, all points of vehicular entrance or exit shall be on an arterial street or collector street located no closer than:
    - a) Two hundred (200) feet from the intersection of two arterial streets, or
    - b) One-hundred (100) feet from the intersection of an arterial street and a local or collector street.
  3. No lighting shall constitute a nuisance and in no way shall impair safe movement of traffic on any street or highway. All outside lighting shall be shielded from adjacent properties.
  4. Floodlights, searchlights, loudspeakers or similar structures shall not be erected or used in any manner that will cause hazards or annoyance to the public generally or to the occupants of adjacent property.
  5. All trash receptacles shall be screened according to Chapter 430 with a fence, wall or building.
  6. Grading and surface drainage provisions shall be prepared by a registered engineer and reviewed or approved by the Portage County Engineer, Rootstown Township Zoning Department, and/or Rootstown Township Road Department, where applicable. *(Amended 9/10/19)*

The following are specific criteria and requirements for certain conditional uses and are in addition to the general criteria set forth in Section 390.02 and the specific standards set forth in Sections 390.03 and 390.05.

**A. Adult Entertainment Uses shall comply with the following:**

1. Rootstown Township has determined that permitting adult uses, as defined in this Section, in proximity to residential, institutional, and non-adult oriented retail uses would have a detrimental effect on such adjacent uses. It has been demonstrated that adult uses, as defined in this Section, have been known to cause undesirable secondary effects on residential and institutional uses, particularly those where children are present, as well as adjacent non-adult use oriented retail uses. Therefore, in order to prevent potential deterioration in Rootstown Township’s retail areas; and to avoid potential adverse impacts on residential and institutional uses particularly those where children are present, and thereby protecting the public health, safety and welfare, adult uses, as defined in this Section, shall be permitted only in the G-I General Industrial District subject to the following requirements.

A commercial establishment may have other principal business purposes that do not involve the offering for sale or rental of material depicting or describing "specified sexual activities" or "specified anatomical area" and still be categorized as "ADULT" BOOKSTORE or "ADULT" VIDEO STORE. Such other business purposes will not serve to exempt such commercial establishment from being categorized as an "ADULT" BOOKSTORE or "ADULT" VIDEO STORE.

observation by its patrons, films, motion pictures, video cassettes, slides or similar photographic reproductions, which are regularly shown and which are characterized by the depiction or description of "specified sexual activities" or "specified anatomical areas".

  - 1) The machine involves a task, game, play, contest, competition, or tournament in which the player actively participates in the task, game, play, contest, competition, or tournament.
